*(taken on 17th October 2022 at 1 Year and 2 Months of age)*

**Fibre Testing Authority:** Art of Fibre

### Description:

Looking ahead to spring, we need to make a bit of room for this year's cria to be born. So, we have made some tough decisions and are listing some females for sale. Feel free to get in touch if you are looking for something specific as we have a variety of females, both pregnant and empty, that are not listed but are available.

Capital Guns N Roses (aka Rose) is a young black female sired by Anzac Viracocha Black Sabbath, a nationally influential black stud with multiple championship winning progeny. Her dam was a compact bay black female called from Bozedown's black breeding programme. Rose has not been to any shows, but is halter trained.

In October I tested my cria and yearlings' fleece, so the fleece sample shown is Rose's second fleece growing in. Please note that her staple length is annualised. As you can see from the fleece information, Rose is staying fine and uniform

into her second fleece. Conformationally, Rose is compact, but has good body capacity and has her dam's petite but true to type head. From Sabbath, she has inherited a well-balanced frame with a straight top line, good substance of bone, and great fibre coverage down her legs, face, and ears. With her wealth of genetics and affordable price, she would be a great addition to a coloured or black breeding programme or as a part of a starter herd for those looking to get into breeding alpacas.

We are happy to offer Rose's buyer a free mating to any of our stud males. This mating does not have to be used for Rose and is transferrable to be used with another female if desired. Milage fees would apply for mobile matings.

Purchasing from Capital Alpacas:

Not only do we strive to provide excellent care to our alpacas, but to our customers as well! Unproven animals come with a fertility guarantee. Pregnant females come with a live cria guarantee that covers the first month of life. We are always happy to offer advice and assistance to our customers when needed. Our animals come with up-to-date husbandry and full records. All sold alpacas will come with a pre-movement negative enferplex test, as is standard for us. Our herd's full health and testing records are available to peruse if desired.

Thank you for looking!  
Kim

Guns N Roses- February 2023
