### Fibre Testing Authority: Art of Fibre

#### Description:

Freya is a beautiful young female with a rich chocolate brown fleece.

She carries a good fine fleece holding at 22.9 microns with exceptional staple length of 120mm and a lovely soft handle.

Freya was sired by our champion grey Limestone Aztec whose lineage is packed with quality grey lines. Her dam Cassandra is brown but has produced both silver and rose grey so Freya would be a great addition to any herd looking to breed colour.

Freya is well grown with good substance of bone. In 2024 she birthed her first cria a beautiful jet black boy.

She is currently pregnant to our new rose grey stud male Summerhaze Solace who was sired by Popham Appaloosa Mardi Gras son of the famous Ambersun Camouflage!

If you're looking to produce colour, grey or possibly Appaloosa then Freya would be a perfect choice.

Our entire herd was tested clear of TB in April 2025.

Fully halter trained and easy to handle.

Full after sales support and advice and we can often deliver.

Discounts available on 2 or more.

**Name of covering male:** Summerhaze Solace (Rose Grey)
