### Description:

Introducing Hensting Lily of The Valley, a stunning alpaca with a truly remarkable fleece that is highly sought after in the milling industry. This magnificent beauty is pure white, a colour that is revered for its purity and versatility.

One of the most exciting aspects of Hensting Lily of The Valley is her potential to produce a range of desirable offspring when bred with a black male. With the likelihood of producing a nice thorn or a brown, breeders are eager to add Lily of The Valley to their breeding programs and capitalize on the unique genetic combination that she possesses.

Let's delve into the exceptional lineage of Hensting Lily of The Valley. Her sire, UKBAS20983 - Inca Grand Design, is a highly respected stud known for his outstanding qualities and pure black fleece. This remarkable father figure has consistently produced top-notch progeny, further solidifying his reputation as a great stud among the alpaca community.

Hensting Lily of The Valley's dam, Poppydown Snow White, carries the renowned Meon Valley genes, which are highly regarded for their excellent traits and contributions to the alpaca industry. This impressive genetic heritage ensures that Lily of The Valley carries the legacy of excellence forward and will continue to enhance the quality of her future offspring.

In addition to her exceptional lineage, Hensting Lily of The Valley possesses impeccable confirmation that exemplifies her beauty and elegance. She features a perfectly balanced frame, with a strong, sturdy build and graceful proportions. Her regal presence and graceful demeanor make her a true standout in any herd and show.

Furthermore, Hensting Lily of The Valley has been expertly halter trained, making handling and transportation a breeze. With her gentle and affectionate nature, she is an absolute pleasure to work with and will easily integrate into your farm or herd environment.

In summary, Hensting Lily of The Valley is a rare and exceptional alpaca, showcasing a sought-after pure white fleece and the potential to produce highly desirable offspring. Whether you are a breeder seeking to enhance your herd's genetic diversity or a fiber enthusiast looking for a truly exquisite alpaca, Lily of The Valley is the perfect choice. Don't miss the opportunity to add this exceptional alpaca to your life and breeding program. Contact us today and bring the beauty and potential of Hensting Lily of The Valley to your farm.
