### Beschreibung:

Barnacre Callula is a compact girl and experienced breeding female who has birthed without assistance each time and has produced healthy friendly cria. The first went to a Supported Living complex for people with additional needs and the second has gone to become a future therapy boy. She currently has a brown male cria at foot who is growing well. Callula is out of a grey sire and her dam has produced us a number of grey so we suspect she could produce grey should her new owner wish to pursue that.

She is fully halter trained and up to date with all her husbandry. We can provide husbandry training and hand on experience if you require.

She has had one mating to Redens Dicaprio, as we have come to the end of our mating window we haven't spat her off but we will remate her if the new owner wishes should she not have taken.

All Barnacre female alpaca sales include:

- Fully documented husbandry folder including personality traits and breeding history
