(taken on 20th April 2022 at of age)

Fibre Testing Authority: Art of Fibre

Description:

This female is offered for sale as although white her sire is an Appaloosa and we are no longer breeder for spots !

This would be a genetic leap up for any coloured breeding programme as her fleece is not only fine and highly organised but it's dense and has good fibre coverage. Her fleece wasn't shown last year as we had others to show but it's one that a buyer will love when they see it. Soft handling with a good style constantly through the blanket into bright organised staple groups.

Kitten is a smaller framed female who is very easy to handle and very friendly and halter trained . The only point on her is I would have liked less primary fibres in her chest area but these are not evident in the blanket and she has a good transition line.

Her fleece stats for this year are listed below and her grand sire is Multi Supreme Champion Houghton Daybreaker and her dam Hilly Ridge Jinx can be seen here at the farm.

Kitten is currently empty and ready for mating in 2023.

Matings are offered to be of our males at a reduced price for females purchased from Hilly Ridge Alpacas.

We are open for TB testing and all alpacas sold come with a fertility guarantee , fecal testing and vet health check .
