(taken on 26th June 2024 at 6 Years and 1 Month of age)

Fibre Testing Authority: Art of Fibre

Description:

Registered as Perfect Symphony but affectionately referred to as Bear (Named by my daughter). Bear has excellent conformation and is a true to type black huacaya female. She is not the densest fleeced female but her fleece is incredibly soft and fine. At 6 years of age she still tested at 20.9 microns with an SD of 3.7. Bear had female cria sired Boztdown Quickstep in 2024 who is a lovely modern grey female. She has also produced a beautiful rose grey female. So if you are looking to breed greys then she is a nice addition to a breeding program. She was mated to Boztdown Bronze Moonlight in 2024 and my wait to see the cria is over... she has produced a beautiful bay black female cria. She is such a chunky well balanced cria and look forward to seeing how she develops. We will be mating her back to Bronze Moonlight.

Name of covering male: Boztdown Bronze Moonlight (Medium Fawn)

Number of Crias bred from female: 3

Sire of Cria at Foot: Boztdown Broze Moonlight (Medium Fawn)

Cria at Foot: A stunning looking bay black female cria, sired by Boztdown Bronze Moonlight. This cria has a cracking frame and can't wait to see how the fleece develops.

Date of Birth of Cria at Foot: 19th May 2025

Current Age of Cria at Foot: 4 Weeks and 3 Days
