### Description:

Isabella is a promising young female, who will be a great addition to any herd. She has a long-stapled fleece, stands well, halter trained and is easy to handle.

Isabella has a strong pedigree behind her of black alpacas, including Australian imports Dear Enahs Streslecki of EPC and Wimmera Skies Jacomo of Woodbine. Also, some striking names such as EP Cambridge Strike Gold, and many more. With such depth in pedigree, we thought her best match would be our stud male Furze Park Uluru. Uluru is a stunning fawn male, proven to produce all colours, including black and fawns, these are the colours we predict the cria this year.

Isabella comes halter trained, with a vet check, Enferplex TB test and 24/7 ongoing support.

**Name of covering male:** Furze Park Uluru (Dark Fawn)

**Last Mating Date:** 31st May 2023

**Estimated Date Cria Due (Pregnant Female):** 30th April 2024
