(pris en charge 20/09/2023 à 5 Ans et 2 Mois l'âge)

Autorités pour l'analyse de la laine: Art of Fibre

Description:

This is a hard one to part with due to her genetics which are tried and tested to produce quality offspring.

Gypsy Star (Baby) is a striking looking female who has inherited her sire's (Daybreakers) strong frame with a good substance of bone. a striking head style with a strong balanced frame. Only shown once as a junior and then not shown due to covid and her being pregnant. Her first cria was sadly misrepresented and passed during birthing through no fault of her own.

We mated her again and her cria which can be seen on farm now will be part of our show team and is a good quality which male. This male is by Ashwood Monty

This cria was born late in the year so we have carried her over ready to mate again this spring. Baby is being sold open and can be mated to one of our stud males at a discount price or to one of your choosing.

This is one female I am not in a rush to sell so her price is reasonable but i would not be taking offers on this price. I have to choose some to sell and want to sell some of our better females as we have other Daybreaker females on farm.

Her fleece has a high level of density and is well structured, bright with a soft handle and aligned into small staple groups. This is a good quality female offered at a very good price
