23.10μ SD 4.80μ CV 20.90% % Over 30 Microns(μ) 8.20%

Description:

TOFT Flash is a young mid fawn female out of TOFT Caras and out Mid Fawn stud male CUZCO FREDDY. She has a white flash in her topknot hence the name.

We bought Cuzco Freddy because he has the most uniform architecture in a very dense fleece as a young male and he has been adding density to our herd ever since.

TOFT Flash is pregnant for 2024 to TOFT TIMOGEN our Champion Dark Brown Stud Male who has produced prize winning offspring throughout the UK in recent years. This cross of TOFT Timogen over the CUZCO Freddy girls is producing a lot of advancement here at Toft and we have no doubt that TOFT Flash will produce something very special in 2024.

Number of Crias bred from female: 1
