### Description:

Atlas is a beautiful and gentle castrated alpaca who is halter trained and will happily hand feed. He is a quiet member of the herd and very inquisitive. Atlas has a fine and bright fleece, and has some lovely markings which would make him a nice addition to a herd. His first fleece sample was just 19.6μ with a comfort factor of 98.3%, so he would make an ideal alpaca for anyone wanting to use his fleece.

The reason for this reluctant sale is that we are no longer running trekking experiences on our farm, so we just do not need so many trained castrated males. Atlas must go to an existing herd of at least two or more alpacas.
