Description:

TOFT Patrica - is a well conformed proven mother who for her age is exhibiting a fine uniform, consistent fleece. TOFT Patrica is a daughter of GRAZING HILLS Parker a sire from the SSS syndicate which imported a number of males from the USA selected for their longevity of fineness.

TOFT Patrica- exhibits a reasonably fine, very uniform consistent fleece with a very soft handle. At almost eleven years of age she she is still maintaining a reasonable fineness and uniformity.

TOFT Patrica is pregnant for 2025 to our Solid Light Brown stud male TOFT Marcello who is a prizewinning son of CUZCO Freddy.

TOFT Marcello has been first in his class at the BAS Nationals and the Heart Of England Alpaca Fiesta at both junior and intermediate level. He exhibits a very fine well organised, bright, uniform fleece with impressive density and staple length.

TOFT Patrica is priced according to her age but given her fleece stats and the fact she is mated to a male who has proven his show credentials and is now siring his first cria she represents a real bargain for anyone stating out with an

aspiration to produce advanced alpacas with longevity of fineness.

TOFT Patrica - is scanned pregnant for 2025 to TOFT Marcello (SLB)
