(taken on 12th March 2024 at 1 Year and 8 Months of age)

### Description:

Inca Rea is a very special and high end medium silver grey female. She has been bred carefully over a number of generations and is currently pregnant to our champion grey sire Inca Grey Omaha.

Visually this female is very true to type with a deep muzzle, excellent body proportion and great presence.

Her fleece is fine, dense, long stapled and very uniform in both colour and micron. It is rare to have a female with such evenness of colour and hardly any spots.

With such a depth of well known bloodlines in her pedigree and a top end mating to match, this female is ideal for those wishing to breed elite greys.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

**Name of covering male:** Inca Grey Omaha (Medium Grey)

**Last Mating Date:** 31st May 2024

**Estimated Date Cria Due (Pregnant Female):** 30th April 2025
