Description:

We are reluctantly selling this boy as we have made the decision to stop breeding and to reduce our herd numbers. Ottis is a handsome black proven stud male who stands on a well proportioned solid frame, with a true head type. Ottis's Grandsire was the multi prize winning Alpaca Stud Nyetimber, so this is an excellent opportunity to gain some of those genetics for your own herd. Ottis has a bright and dense fleece with a good staple length.

He loves the ladies and is ready to work immediately! We are only considering 5* homes for this gorgeous boy and would need him to live with a herd of males with similar laid back temperaments. He is a very docile and gentle boy and would be an asset to anyone looking to add some black genetics in their breeding program.

Ottis is up to date with all of his vaccinations and husbandry and is microchipped and registered with the British Alpaca Society.
