Type: Pregnant Female (Pregnant)

Breed Type: Suri

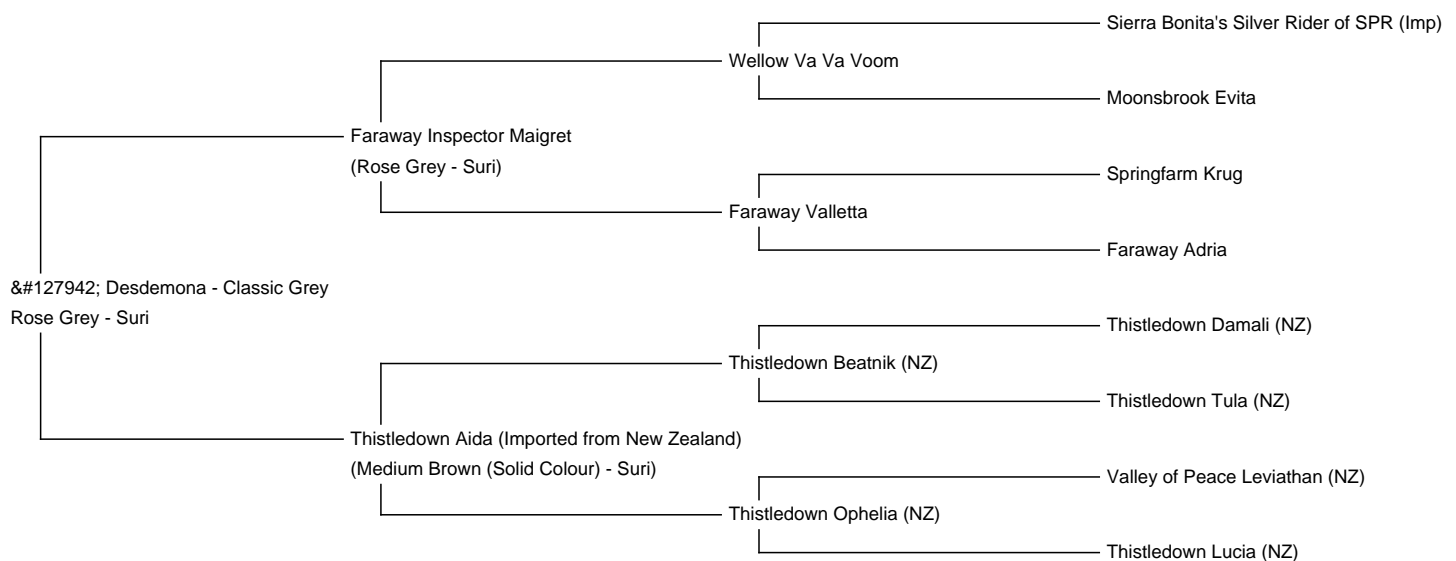

Colour: Rose Grey

Registered With: British Alpaca Society

UKBAS42354

Blood Lineage: McGyver, Thistledown, Jolimont

Date of Birth: 21st June 2022

Description:

Desdemona has been genetically tested at Neogen Laboratories and confirmed as Classic Grey, although her phenotype does not display white fibre on the neck to show in the classic grey class, she has had a hugely successful show career and has won multiple Modern Grey Championships. As her genotype is classic grey, she will produce classic grey or solid Cria.

Desdemona stands on an incredibly strong frame with a fine and lustrous fleece. Desdemona's Dam is from Thistledown Alpacas in New Zealand where Molly's animals are very well recognised for their consistency of micron and this trait has been passed along into Desdemona and is often commented on by UK judges.

Desdemona has been mated to our show-stopping British Alpaca Society Classic Grey National Champion Winsaula Malahide who carries the EE aa bingo black genetic code. Malahide has an almost flawless record of throwing 91.10% grey progeny.

Winsaula Alpacas have been breeding since 2014 and have won multiple breeder awards. We offer a lifetime of support and a 7 day live Cria guarantee. Our animals are available for export. We hold the largest collection of Classic Grey Suri in the UK and if you would like to visit the farm or would like further information please contact me on 07540 124768 or prwinsor@icloud.
