Description:

Titanium is an stud who has everything a breeder wants in a white stud. He is a real macho with a very strong bodyframe. His fleece is really ultrafine, bright and dense, with zero guardhairs. His familytree is one which is amazing!!!! Most of his ancestors had an incredible showcareer!

Now its time for his own offspring. We allready have several cria's which will participate the next show in March in Holland. And we can say: they look really promising.
