Colour: White

Registered With: NONBAS5288

Date of Birth: 11th May 2024

Pentney Archie

Mullacott Jupiter
White - Huacaya

Leven Valley Krystal Kandi

Description:

Jupiter is inquisitive, liking to know what's going on. He has good confidence and is calm and easy to do husbandry with. He is coming along very well with his head collar training. He's a complete star with alpaca agility challenges.

Mullacott Alpacas is a farm with high welfare and biosecurity standards. All alpacas are individually faecal tested about every six weeks and only then given appropriate treatment for any gut parasites if necessary. The whole herd is currently vaccinated with Bravoxin10, with six monthly boosters. A voluntary bTB test is carried out on every alpaca in the herd, annually. All deaths (over around 3 months of age) are subject of post mortem, to check for any undiagnosed health conditions.

We take bio-security very seriously, with all incoming alpacas thoroughly treated for any gut parasites, before moving onto the farm and then faecal tested on arrival and before leaving quarantine. Pre-movement tests are carried out for bTB and Johne's Disease (We have never had either disease diagnosed on the farm). All incoming alpacas are kept in quarantine for at least four weeks before joining the main herd.

We are willing to conduct any pre-movement tests/parasite treatments that you request.
