**Date of Birth:** 4th August 2015

### Description:

Looking for a new home for two alpacas which are listed separately but must go together as they are the best of friends.

Registered as Bruno but his field name is Ernie.

We took these boys on as the previous owner was moving home and time was running out to find them new homes.

Enferplex tested to arrive here a few weeks ago and open to new testing. We have been updating the boys halter training and they are now walking out nicely but still need some practice.

Ernie is a quietly confident male in the field and will come up and hand feed and also give visitors a kiss on the nose. On walk he prefers Toffee his friend to lead till he gains his confidence.

Both males have lived with each other for about five years without any other alpacas and i would advice castration for them if you would like to integrate them into a existing herd. Castration can be arranged here prior to leaving as we are having the vet here to see some of our other males soon. ( Castration as the new buyers cost due to a the low sale price )

They are completely up to date with their husbandry and have had their Alpaca MOT's while here at Hilly Ridge .

We are part of the BAS trusted seller scheme and as such a full back up service is provided with every sale to make sure the alpaca and purchaser are happy.
