Charming Alpaca Boys Seeking Loving Homes!

Looking for gentle, fluffy companions that will bring joy to your family? We have a delightful group of 18-month-old alpaca boys ready for their forever homes! The smallest group we will sell is 3 alpacas as they need to be in a herd with friends.

Why Choose Our Alpaca Boys?

- Family-Friendly: These boys are incredibly friendly and have been around families and children. Their gentle nature makes them perfect additions to any household.
- Halter Trained & Well-Handled: They are regularly handled and halter trained, ensuring they are easy to manage and a pleasure to be around.
- Healthy & Castrated: At 18 months, they are fully developed and castrated, eliminating any concerns about breeding. This age also ensures they have matured without any negative effects from castration.
- Lovely Temperaments: These boys possess sweet and calm personalities, making them ideal as cherished pets or therapy.
- Excellent Pedigree: Bred from top-quality mothers and fathers, they boast excellent genetics. While not retained as stud males, they possess the quality to have been.
- Ready for Their New Adventure: We take pride in raising our alpacas with care and attention, ensuring they are well-socialized and ready to transition smoothly into their new homes. We keep them for 18 months to ensure they are well trained and have reached full growth before being castrated.
- Sold in groups with a minimum of three.
