(taken on 3rd June 2018 at 1 Year and 1 Month of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Rivenherd Dave only just started working at the end of 2019 mating season and produced a lovely even grey female during the summer 2020. Rivenherd Dave has matured into a big upstanding grey male who has great conformation. The uniformity of colour and micron of this grey male has resulted in two Reserve Champions, 3 x 1st and 2 x 2nd in some very competitive grey classes.

The combination of successful grey genetics in his dam and the many times proven progeny of his black sire gives great potential for producing high quality grey cria in the future.

Prizes Won:

2018
