**Type:** Stud Male (Proven Stud)  
**Breed Type:** Huacaya  
**Colour:** True Black  
**Registered With:** UKBAS39634  
**Date of Birth:** 21st July 2020

**Description:**

Meet Henry, a proven stud male with a strong genetic background who has proven to produce quality offspring. He loves to pose for photos and enjoys going for walks on our alpaca experiences.

Henry offers exciting potential to throw a wide range of colours in his progeny, making him a valuable asset for breeders looking to diversify their herd. While he can be dominant when the herd needs a leader, he is also happy to blend in with his male companions.

He is listed as true black, as his saddle is solid true black, but he has a wonderful brown splodge on the side of his face. Indicating his colourful pattern genetics on his mother's side. He has had 2 cria so far: True Black and White.

Henry boasts a pure black, super soft fibre.

Henry as a cria 2020
