(Entnommen an 1/06/2024 im alter von 5 Jahre und 11 Monate)

Faser-Untersuchungsorganisation: European Wool Testing Authority

Beschreibung:

CME Florian's primary attribute is his longevity of fineness and lack of strong primary fibres with his sixth fleece coming in at 21.5 micron. His seventh fleece is holding its structure and brightness really well and he passes all these lovely fleece traits on to his progeny. Florian is a good breeder and has a calm temperament looking on when the younger boys decide to have a row.

We only showed him in 2019, 2022, 2023 and 2024 as covid got in the way in the interim.

Florian has sired a good many of our girls it is time for him to move on.
