Description:

Inca Grey Radisson is a remarkable looking and extremely well bred medium grey herd sire. He is the ideal size and has excellent fibre coverage and matched with his stature, he has real presence.

Conformationally he is correct in all aspects. He has been fast to grow and mature and has never showed signs of parasite issues.

His fleece is fine, dense, very uniform in colour and the brightness of the fibre gives it a super soft handle.

With such a depth of grey breeding from some of the world's most decorated and well known bloodlines, Inca Grey Radisson is a must for anyone wishing to develop their grey breeding programme or move from solid coloured females to grey.

This halter trained male comes with all our normal guarantees including registration upgrade, fertility, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.
