WHY ARE WE SELLING ROCKY?

Rocky is our homegrown boy, he was eager to start working aged 2, and we had his first cria on the ground in 2022. Since 2022, we have had many gorgeous cria from him, ALL TRUE BLACK of course! He has significantly improved our black herd programme, but now we need to move him on as he is closely genetically connected to a large share of our herd now. Rocky is such a personality, everybody who meets him loves him, and he hums to everyone! We will be sad to see Rocky leave our herd, and we are looking for a new 5* home where he can continue working improving another breeders' black herd programme.
