Omschrijving:

Inca Succession is a true to type female who has great balance and presence. She is well covered in fibre taking after her dam in that respect.

Conformationally she is very correct with fluid movement and presence.

Her fleece is very dense, super fine, bright and uniform.

With her depth of quality breeding and a mating to the ideal sire for her, I expect her cria to be elite quality.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.
