### Description:

Viktor offers an impressive genetic package which combines Bozedown on his dam's side with Alpaca Stud Nyetimber as his grand-sire. He is well grown, with a true-to-type head shape and the stature needed for a working boy. As a grey, his colours are uniformly distributed across the body with his fleece dense and long. His sire, Veraison, (himself a multi-champ) retained a fleece micron under 21 for over 5 years! For anyone looking to breed greys, Viktor is great addition to the herd.
