Description:

Cold Comfort Magnus is the real deal. He is super fine, dense and even at this early stage of his development he boasts the stature of a stud-in-waiting. This is unsurprising if you consider his genetic package...Bozedown/Alpaca Stud Nyetimber on his dam's side and with his sire, Snowmass Mystic Star, rapidly becoming one of the most influential brown herdsires in the UK. I'd be surprised if Magnus is not ready to fulfil his true potential by Summer 2026!
