Date de naissance: 30/06/2023

Description:

Chestnut Farm Ginger is a lovely, well grown young Fawn female, she has correct confirmation and stands on a strong frame with good substance of bone.

Ginger grows a lovely fine, soft handling fleece.

Ginger is sired by Toft Titanium so she has Goldmine in her ancestry.

Her dam is our Championship winning female Chestnut Farm Cassie who is an important part of our core herd, Cassie has also produced our Championship winning males Chestnut Farm Defiant and Chestnut Farm Alchemist.

Ginger is halter trained and easy to handle, she turns two this summer so will be ready for mating.

Ginger will come with a printout of her medical history and be up to date with all husbandry and will have been sheared. All Alpacas have a FEC done before leaving the farm. We offer training and full after sales support and advice.
