(taken on 10th March 2025 at 3 Years and 9 Months of age)

Fibre Testing Authority: Alpakotela Lab

Description:

Accoyo-Europe Pixie is a very stylish and extremely rare pure Accoyo white female.

Conformationally she is correct and has great balance, substance of bone and fluid movement.

She is a long stapled female who offers great fineness, brightness and excellent soft handle to her fleece.

On this occasion we have decided to breed her to a homozygous black male in order to produce a coloured cria from her of very high quality. However, if she was to be crossed with an elite white sire, the hybrid vigour that would result in should produce a truly magnificent white cria.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

Name of covering male: Inca Lewesdon (Black)

Last Mating Date: 8th July 2025

Estimated Date Cria Due (Pregnant Female): 8th June 2026
