### Omschrijving:

Accoyo-Europe Pixie is a very stylish and extremely rare pure Accoyo white female.

Conformationally she is correct and has great balance, substance of bone and fluid movement.

She is a long stapled female who offers great fineness, brightness and excellent soft handle to her fleece.

On this occasion we have decided to breed her to a homozygous black male in order to produce a coloured cria from her of very high quality. However, if she was to be crossed with an elite white sire, the hybrid vigour that would result in should produce a truly magnificent white cria.

This halter trained breeding female comes with all our normal guarantees including live cria, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.
