Geburtsdatum: 27/05/2017

Beschreibung:

Misfire is a very sweet natured alpaca and has given us some lovely cria. Sadly her cira are often born early and its heartbreaking when they dont make it. Sadly her last cria was born far too early and we have decided to offer Misfire for sale as a non breeding female.

Misfire provides not only a lovely fawn fleece she is also often a surrogate mother and will allow other cria to nurse from her which is invaluable should you end up with an alpaca unable to nurse its cria. Photo in the description taken 20/7/2025 with her being a surrogate mother to a bottle fed suri male . We introduced him to her last night and she was helping straight away !

We are offering her for sale only has we need to reduce our numbers this year and we know that she will be an asset to another herd.

Misfire has a kind temperament , hand feeds and is halter trained.

Sold only as a non breeding female at a price far below her value

Anzahl geborener Crias dieser Stute: 2
