**Date of Birth:** 27th May 2024

### Description:

Made for you ! Her farm / pet name is Maise.

Maisie is exceptionally friendly and will come up to you in the field for a stroke and likes to know what's going on.

Maise will be ready to mate next year and she stands on a conformationally correct frame with a very soft handling fleece with above average density. Maise is halter trained and is very easy to handle.

As she is young we would like Maise to be sold with another alpaca from our herd to help her settle in her new home.

Maise has been colour genetic tested as eeaa We are about to send her fibre sample for testing and her fleece can be seen her at the farm . Maise with that genetic coding is very vesitle and will allow options to breed colour or lightr colours with the correct male.
