(taken on 10th March 2025 at 6 Years and 8 Months of age)

**Fibre Testing Authority:** Alpakotela Lab

### Description:

Inca Marcelo is a truly stunning looking stud sire that is very well put together. The conformation of this male is excellent and he walks with a powerful and fluid movement.

His fleece is very dense as his breeding would suggest and it's bright which contributes to a soft handle.

This male was sold to a leading breeder of blacks in the north of England but due to their retirement, Inca Marcelo has returned home and is ready to continue his great work in a new breeding programme.

He has done extremely well with his progeny showing well and being very consistent, especially in terms of fleece density.

With such a well known and proven pedigree, Inca Marcelo is ideal for those looking for cutting edge genetics and a proven track record.

This halter trained male comes with all our normal guarantees including fertility, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

Price is negotiable.
