(taken on 26th June 2024 at 6 Years and 1 Month of age)

Fibre Testing Authority: European Wool Testing Authority

Description:

Registered as Perfect Symphony but affectionately referred to as Bear (Named by our daughter, Amelia). Bear has excellent conformation and is a true to type black huacaya female. She is not the densest fleeced female but her fleece is incredibly soft and fine. At 6 years of age she still tested at 20.9 microns with an SD of 3.8. Bear had female cria sired Bozedown Quickstep in 2024 who is a lovely modern grey female. She has also produced a beautiful rose grey female. So if you are looking to breed a selection of colours then she is a nice addition to a breeding program. She was mated to Bozedown Bronze Moonlight in 2024 and has produced a beautiful bay black female cria. She is such a chunky well balanced cria and I look forward to seeing how she develops. Bear has been mated her back to Bronze Moonlight and has been scanned pregnant.

Number of Crias bred from female: 3
