**Faser-Untersuchungsorganisation:** Art of Fibre

**Beschreibung:**

We are offering up for sale our solid light brown stud male Inca Nobleman.

Nobleman has been here at Chestnut Farm for four years now and has had a very positive impact on our herd, we have been very pleased with the quality of his offspring, they have inherited his positive fleece traits and his calm temperament, not to mention their correct conformation and substance of bone.

Nobleman has produced some stunning offspring including our Championship winning Solid light fawn male Chestnut Farm Alchemist and our Supreme Champion Solid White Male Chestnut Farm Mr Whiteley.

Nobleman has also produced some lovely daughters since he has been here at Chestnut Farm, he really has proved

himself to be a worthy herd sire.

Inca Nobleman is a very well grown male with a strong frame and correct confirmation, with great substance of bone.

Nobleman's fleece is incredibly dense and soft handling, his fleece is uniform throughout the blanket and into the extremities.

Nobleman is maintaining his fineness as he matures.

Inca Nobleman is halter trained and he has a lovely calm temperament.

Being a small herd we only have a limited number of females for Inca Nobleman to go over, he isn't getting the work he deserves, this lovely male still has so much to offer.

Inca Nobleman will come with a printout of his medical history and will have a FEC done and treated if necessary before leaving the farm.

He will be up to date with all husbandry.

We offer full after sales support and advice for as long as required.

Members of the BAS trusted seller scheme.
