20.10μ SD 4.30μ CV 21.50% SF 19.60μ Curvature 35.00 deg/mm Staple Length 115 mm

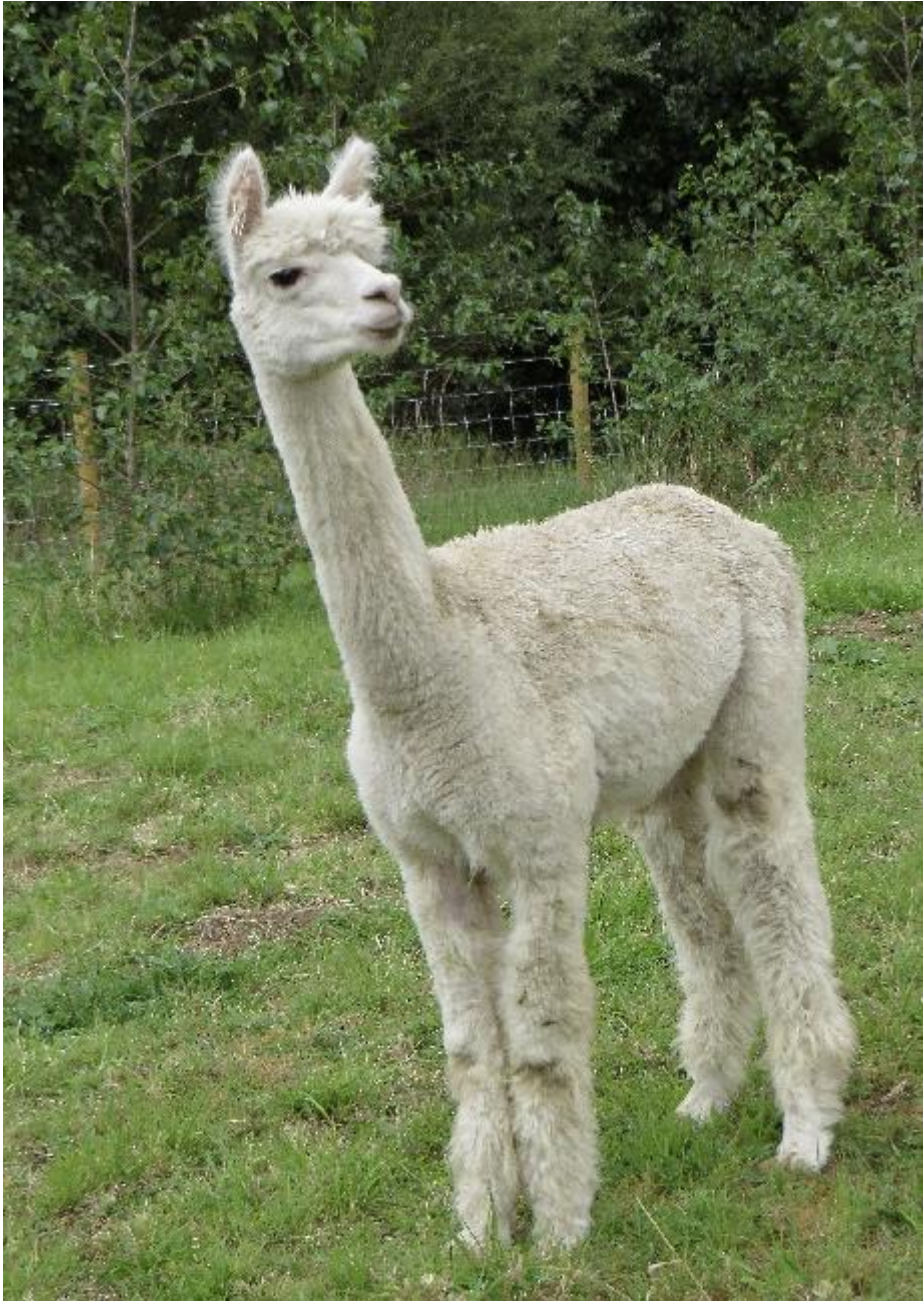

**Fibre Testing Authority:** Independant Wool Growers

**Description:**

We bought Mivvi as a weanling and have since tried mating her on several occasions but unfortunately without success. This is sad for her as she loves the cria and makes an excellent 'auntie'. Mivvi has a very quiet, gentle, unassuming nature. She is easy to perform husbandry tasks on. Mivvi is halter trained and has been used for walking experiences in the past.

She is very bonded to Rolo, so they must go as a pair.

**Number of Crias bred from female:** 0

Mivvi and Rolo (and Crumble) on a windy day!
