Stapellänge 115 mm

Faser-Untersuchungsorganisation: Independant Wool Growers

## Beschreibung:

We bought Mivvi as a weanlling and have since tried mating her on several occasions but unfortunately without success. This is sad for her as she loves the cria and makes an excellent 'auntie'. Mivvi has a very quiet, gentle, unassuming nature. She is easy to perform husbandry tasks on. Mivvi is halter trained and has been used for walking experiences in the past.

She is very bonded to Rolo, so they must go as a pair.

Anzahl geborener Crias dieser Stute: 0

Mivvi

Mivvi and Rolo (and Crumble) on a windy day!
