**Date of Birth:** 2nd June 2016

### Description:

Super BAS registered, experienced breeding female.

- Carlshead Gloria - 9 year old (2016) white female with impressive genetics (Fowberry lines).

Gloria is a wonderful mum, very easy in every way, eats out of your hand, leads well and up to date with all husbandry. She has produced a number of fantastic cria, two of which can be seen with us (3 year old) and one (yearling female) is offered alongside her as part of a package if required.

With her lovely genetics and easy nature, she will make a great addition to any herd and is easy enough to be part of a starter herd (please see our other females listed for sale).

We are offering Gloria as part of a starter herd (discount offered) or, alternatively she could be purchased alone if going to an existing female herd.

We are only offering a few of our females as we need to downsize our herd.

Lifelong support offered.

Delivery can be arranged.

Bolton, Lancashire

**Number of Crias bred from female: 5**
