(Genomen op 23/04/2025 op de leeftijd van)

Wolanalyse-organisatie: European Wool Testing Authority

Omschrijving:

Bozedown Custom Made is a beautifully balanced beige Suri female with an exceptional pedigree and outstanding fleece qualities.

Her sire, Bozedown Outlaw II, is a multi-championship-winning male who continues to impress both in the show ring and in his progeny. Outlaw has produced numerous champion offspring, including this year's British Alpaca Society National Supreme Champion in both halter and fleece – Bozedown Opening Night. Now nine years old, Outlaw still maintains remarkable fleece characteristics, with superb lustre, density, and the signature layering of fine, silky locks for which his line is renowned.

Her dam, Bozedown Fascination, is an excellent female in her own right, with a pedigree rich in elite genetics including Chakotah's Binalong, Moonsbrook Caesar, Dazzler of Bozedown, and Caesar of Bozedown. At five years old, Fascination continues to demonstrate the quality and consistency expected from these bloodlines.

Custom Made exhibits an excellent Suri phenotype — strong bone structure, balanced conformation, and an elegant presence. Her fleece displays superb lustre, impressive density, and exceptional length, complemented by an advanced, uniform lock style that carries consistently across her body and up her neck — clear evidence of her fine and even

micron throughout.

Bozdown Custom Made is currently pregnant to Bozdown Singapore, and we eagerly await her first cria, due May next year. With her pedigree, fleece quality, and proven genetic background, she represents an exciting opportunity for any serious Suri breeder looking to enhance their herd.
