(taken on 16th August 2024 at 3 Months of age)

Fibre Testing Authority: European Wool Testing Authority

Description:
Avril is a very well grown and correctly conformed female with a fine and uniform fleece just lacking in a little density. She would be a great addition to a dark breeding programme.

Avril will come with a free mating to one of our herd sires of your choosing (included in price).

Number of Crias bred from female: 0
