(taken on 10th March 2025 at 1 Year and 7 Months of age)

Fibre Testing Authority: Alpakotela Lab

Description:

Inca Sauvage is an extremely well bred male approaching his third year of age.

He, along with a handfull of other males here at Inca, has passed a stringent set of criteria to be selected as a sire of the future. Conformationally he is correct in all areas and his fleece is fine, very dense, bright and uniform in colour and micron.

What makes a sire great is uniformity of elite phenotype in the pedigree and reliable bloodlines. Inca Sauvage has two BAS National champions as parents and both continue to yield very fine and heavy fleeces each year whilst being quite resistant to parasites.

This halter trained male comes with all our normal guarantees including fertility, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.

Inca Sauvage

Inca Panache - BAS National Champion and dam of Inca Sauvage
