(taken on 10th March 2025 at 8 Months of age)

**Fibre Testing Authority:** Alpakotela Lab

### Description:

Inca Tiberius is a very striking future herd sire that not only is conformationally correct but he excels in his fleece. More specifically, he has a very dense fleece that is bright, super soft and very uniform in both colour and fineness.

He has a slightly different pedigree than a lot of our stock as he has the infusion of the famous Australian sire, Softfoot Koo Wee Rup and this adds brightness, density and uniformity to the staple. He is also a very rare son of Inca No Strings that we have released for sale.

His full brother is Inca Strategist, BAS National Show Reserve Champion Black Male 2024 and 25.

This male is ideal for those looking to make a huge fleece advancements in their coloured stock.

This halter trained male comes with all our normal guarantees including registration upgrade, fertility, full veterinary health check and our long term advice and support.

Available for domestic purchase and also export to the EU, Norway, Switzerland, India and the Middle East.
