Beschreibung:

Bozedown Dark Phoenix

Outstanding Young Black Stud – Proven Show Success & Exceptional Fleece Qualities

Bozedown Dark Phoenix is an impressive young male who displays all the attributes of a future herd sire. He stands squarely on a strong, well-balanced frame with excellent substance of bone and overall development well beyond his age. His phenotype is everything you would expect from elite Bozedown genetics — presence, structure, and style.

Dark Phoenix has already made an exceptional start to his show career, achieving top results on both the halter and fleece circuits in 2025:

British Alpaca Society National Halter Show 2025 – 2nd Junior Black Male & Reserve Champion Black Male

Welsh Alpaca Halter Show 2025 – 1st Intermediate Black Male & Champion Black Male

Heart of England Fleece Show 2025 – 1st Junior Black Fleece & Champion Black Fleece

Northern Fleece Show 2025 – 1st Junior Black Fleece & Reserve Champion Black Fleece

Dark Phoenix's fleece is a true standout — exceptionally soft handling with a silky lustrous fleece, combining above-average density with excellent uniformity of micron across the blanket and well into the extremities. His evenness of colour and fineness add further to his appeal as a potential black stud of real quality.

His sire, Bozedown Don't Stop Me Now, colour tested EEaa, brings proven black genetics and strong colour stability to his pedigree, reinforcing Dark Phoenix's value as a future black sire of distinction.

This young male offers an exciting opportunity to add proven show-winning genetics and outstanding fleece qualities to your breeding programme.
