Bozedown Full Throttle – Exceptional Coloured Suri Stud Male Prospect

Bozedown Full Throttle is an impressive, well-grown intermediate Suri male displaying excellent substance of bone and beautiful, balanced conformation. From the outset, he has shown great promise both in the show ring and as a future breeding male, offering outstanding potential to enhance any coloured Suri breeding programme.

Full Throttle's fleece does not disappoint — it is soft, silky, and full of lustre, demonstrating superb uniformity of micron across his blanket. His junior fleece achieved an excellent score of 80 points before deductions, with particularly high marks for density, uniformity, and lack of guard hair, all indicators of his quality and breeding potential. These exceptional traits led to him being awarded Judge's Choice Suri at the Heart of England Fleece Show 2025 — a remarkable achievement for a coloured male competing amongst the typically dominant whites.

Full Throttle's genetic background is equally impressive.

His dam, Bozedown Tia Maria (EeAA), is a key female within our coloured suri breeding programme. At just five years old, she has already produced three mid-brown crias — two of which have gone on to achieve Championship titles —

with her 2025 female cria showing great promise to join our show team next season.

His sire, Bozedown Don't Stop Me Now (EEaa), is a striking black stud male consistently producing beautifully fleeced coloured Suris with strong frame, style, and uniformity — traits clearly passed on to Full Throttle.

Full Throttle is only offered for sale as both his sire and dam are prominent within our core breeding herd, limiting his opportunities here. We have no doubt he will make a valuable contribution to another herd's coloured Suri breeding programme.
