*(Entnommen an 11/03/2023 im Alter von 3 Jahre und 9 Monate )*

**Faser-Untersuchungsorganisation:** Art of Fibre

### Beschreibung:

Rymes Farm Lucy Lou is a dark rose grey female with an impressive fleece. Her fleece has stayed around the 20 micron mark for the past few years, proving her value as a quality fibre producer. She has correct conformation and excellent fleece coverage.

We tried breeding her for the first time as an external mating and she didn't take. However, we haven't tried since as we have more of our youngsters coming up for breeding and are not looking to breed large numbers. Hence the decision to offer her for sale to the discerning breeder.

She has a sweet disposition and will occasionally come up for a stroke with visitors. That and her pretty looks make her popular.

We are non profit cottage breeders, breeding with the aim of continuously improving fleeces. We have a number of really nice females we can offer as a package or individually. Not all are listed here or in our website, so please get in touch if you would like a price list. All of our alpacas are priced to be affordable whether to new entrants or to the

existing breeder who wishes to bring in a bit of fresh blood.

All our adult alpacas are halter-trained for ease of handling.

All our sales come with:

- a full health history of the animal
- after sales support
- pregnancy certificate
- pre-movement worming
- live cria guarantee (7 day)
- discounted stud services to returning females
- microchip
- BAS registration
- No VAT
- a free course in caring for your new alpacas

We can provide a Tb test at purchaser's cost.
