(taken on 31st May 2024 at 1 Year and 10 Months of age)

Fibre Testing Authority: SGS

Description:

Red Granites Larimer is a very impressive male!! He stands out in the pastures with his impressive full-coverage phenotype, large bones, capacity, and enduring personality. The fleece he carries is beautiful!! He has a great amount of brightness coupled with extreme density and a medium to high frequency fleece style, which is uniform in style and micron when you move across his body. His 2024 EPDs reveal that he is the 97th out of 30,000+ males for %M, meaning that on average, he will produce less overall fiber medullation than the breed average (primary fibers).

Larimer really came into his own his two-year-old season, reason being why we brought him back out to shows. During that time he gained 1 Best Bred & Owned Male banner, 5 First Places, and 1 Third Place. This makes him a 5th generation champion on the top (sire side)...

His sire, Red Granites Bad Boy, is a powerful Herdsire with longevity (
