(taken on 15th April 2025 at 1 Year and 10 Months of age)

Fibre Testing Authority: European Wool Testing Authority

Description:

Bozedown Emanuelle is a very well developed female displaying excellent conformation and a beautifully calm temperament. Her fleece is soft-handling with an impressive staple length, showcasing her strong genetic potential.

Breeding forward, an increase in fleece density would be a valuable improvement, but Emanuelle is expected to carry her dam's remarkable residual fineness. Her dam, Bozedown Tamsin, continued to breed successfully up to 16 years of age—a true testament to longevity and enduring quality. Despite her age, Tamsin's fleece remained beautifully soft and still measured under 22 microns.

Emanuelle is offered for sale pregnant to Bozedown Bronze Moonlight, a striking mid-fawn male whose pedigree combines the outstanding genetics of Bozedown Comet II and Snowmass Bronze Royalty of Artwork Alpacas. This pairing is expected to produce a cria with excellent colour potential, superior handle, and strong structural correctness. A superb opportunity to add a promising young female with proven genetics and exciting breeding prospects to your herd.

Name of covering male: Bozedown Bronze Moonlight (Medium Fawn)

Last Mating Date: 11th June 2025

Estimated Date Cria Due (Pregnant Female): 11th May 2026
