**Blood Lineage:** Inca/Classic MileEnd

**Date of Birth:** 23rd July 2024

Powwow Perla

White (Solid Colour) - Huacaya  
(Imp)

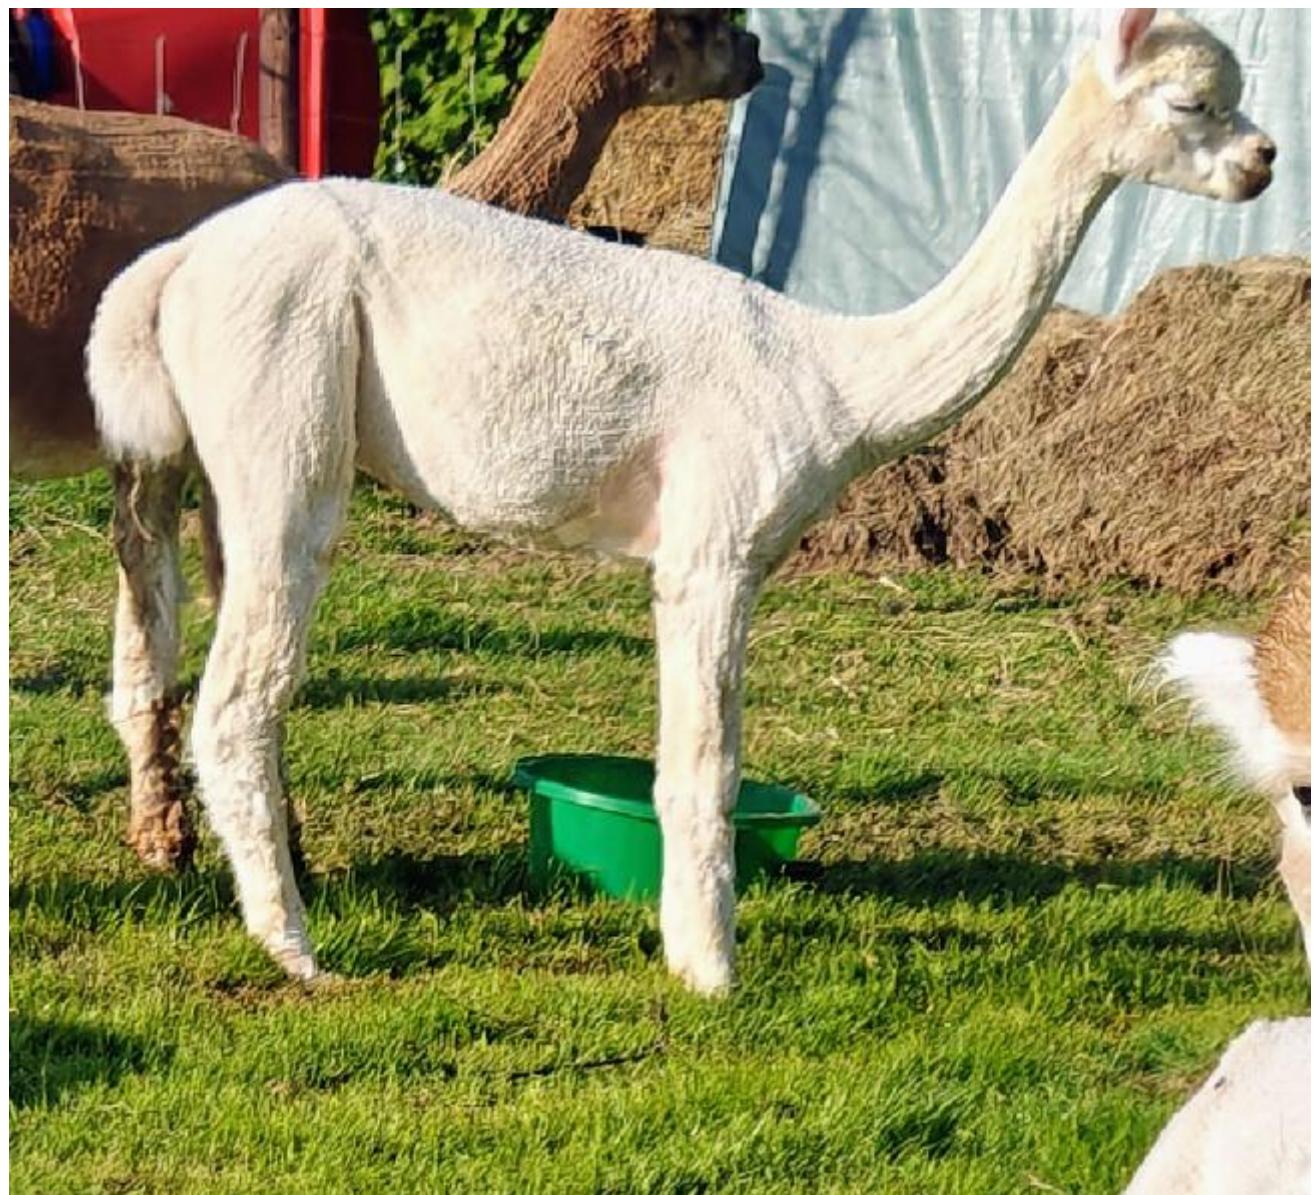

### Description:

Perla is a striking young solid white Huacaya female with a bright fleece and strong conformation, making her an exciting future breeding prospect. Her pedigree blends elite grey and coloured genetics from Crewenna Grey Bentley and Classical MileEnd Yum Yum, including names such as EP Cambridge Gunsmith, Wyterrica Propaganda, Blue Grass Waterloo Sunset, Jolimont Commisario, LMFI Peruvian Dynamics, and Majestic Peruvian Jeremiah. This mix gives her the potential to produce a wide spectrum of coloured offspring while maintaining quality fleece traits. Perla is tall for her age, began eating solids from just one month old, and has inherited striking blue eyes — a trait likely stemming from her grey sire — making her an especially interesting and unique female. With her curious nature and gentle temperament, she is not only a valuable addition to any breeding program but also a delightful presence in the herd.

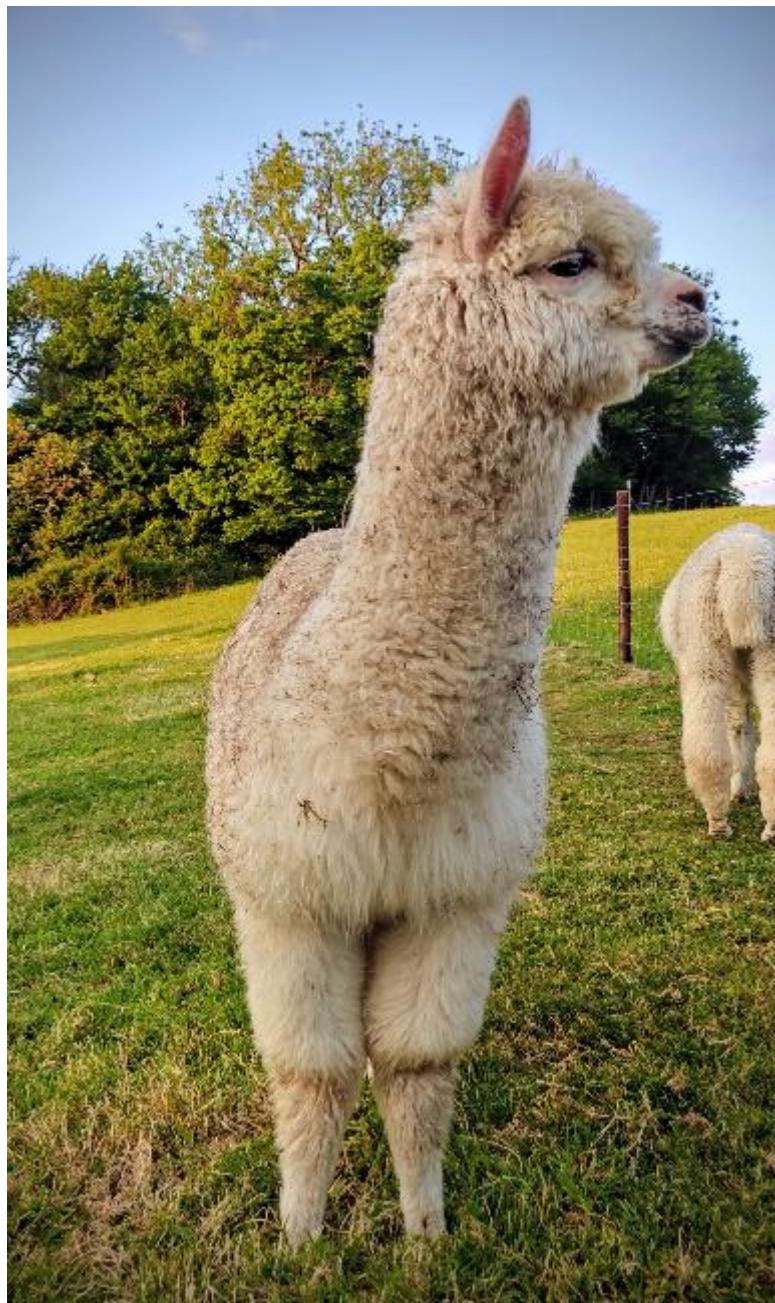

### Prizes Won:

- First Show – 2025: 7th Place (note: result influenced by handler preparation, not fleece quality)
