Description:

Urcuchillay Brown Sugar is wilful yet gentle, a female who communicates with her expressions and presence. She is straightforward to manage and brings character to the paddock. With her fine, dense fleece showing a lively crimp and excellent comfort factor, she is not only a pleasure to have around but also a valuable fleece producer. Even at 8 years old, she continues to hold her fineness, with a 2022 micron of 20.1 and a comfort factor of 97.8%. This consistency demonstrates the strength of her genetics and makes her a reliable fleece producer for years to come. Brown Sugar would make an ideal choice for a starter herd, combining personality, quality, and proven genetics in one package.
