Type: Female

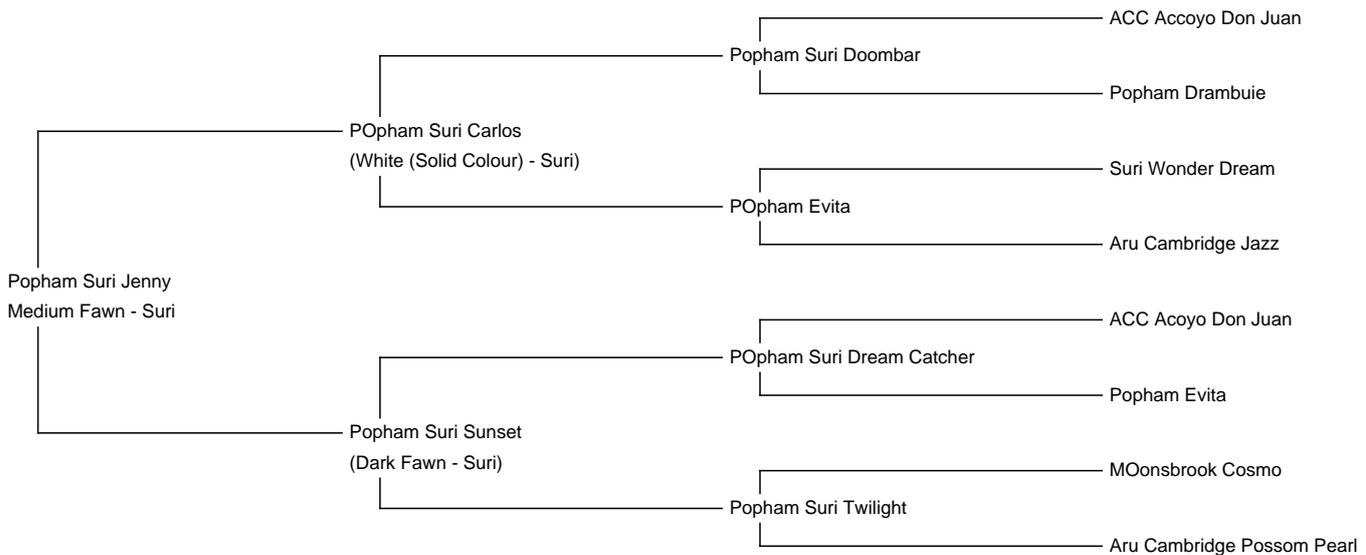

Breed Type: Suri

Colour: Medium Fawn

Registered With: BASUK34501

Blood Lineage: Accoyo, WonderDream, Popham

Date of Birth: 30th June 2018

Description:

Jenny is a rare Suri Alpaca, accounting for about 7% of the UK population of Alpaca. Jenny has a wonderful temperament and looks after everyone in the herd. If anyone is hanging back because they haven't noticed the herd have moved on, Jenny will hang back and wait for them to catch up....even if it means being late for breakfast.

Unfortunately Jenny is not able to have any more Cria. As we are a breeding farm we are looking for caring owners to give her a forever home.

Jenny is up for sale with Isabella who is also very reasonably priced as a non breeding female.

Winsaula Alpacas have been breeding for 11 years and offer a lifetime of support and guidance. We have won multiple awards including the British Alpaca Society National Show 2025 Best Medium Breeder Award.

We also run husbandry courses for new owners where you can learn everything there's to know about looking after Alpacas.

If you are interested and would like to discuss further or would just like a chat about Alpacas, please contact us on 01934 732324 or e-mail prwinsor@icloud.com
