Description:

Our home-grown stud male, Bingfield Dallas (dark brown, Eaaa). This one isn't an easy decision, but due to him being genetically very close to many of our females, he simply doesn't get the work he deserves here.

Dallas has produced strong, well-grown cria that go on to become very nice alpacas with incredible length of fleece! He's been a valued part of our herd. Dallas himself proves his presence in the paddock he stands on a confirmationally correct frame and delving into his fleece he has dense and fairly fine fleece with a fantastic style that is bright and beautifully organised across the whole of his fleece. He would make a great addition to a new herd.
